

No one really thinks about the plumbing — until something goes wrong. That's when a plumbing technician becomes a superhero. Whether it's for residential, commercial, or industrial properties, plumbers are there to install, maintain, and repair water and piping systems, including installing fixtures and appliances, repairing broken equipment, and more. It's a profession that is in consistent demand all over the United States.

At Summit College, we know that the most important thing we can do for our students is build a curriculum that really prepares you for the job market. Our Plumbing Technician program uses both classroom and hands-on instruction to teach you things like:

At Summit College, you can complete our Plumbing Technician program in just 8 short months! We also offer:

- **Flexible day or evening classes:**
To better fit into your busy schedule and make furthering your education possible.
- **Professional faculty focused on your success:**
Your instructors have all done the job you're training for and use their experience to prepare you for real-world situations.
- **The perfect learning environment:**
Our dedicated faculty, small classes and modern facilities make it easy

PLUMBING CAREER OUTLOOK

Plumbing technician jobs in California are growing even faster than the national average, with the California Employment Development Department projecting employment to increase by 12% through 2028. This is much faster than all occupations and includes positions for both companies and for self-employed plumbers.

WHERE SUMMIT PLUMBING GRADS CAN WORK

- Plumbing and HVAC contractors
- Residential construction
- Manufacturing
- Heavy and civil engineering construction
- Other home, business, and factory settings
